

Voucherfest 2007: Camdenton & Branson

Use 'em or lose 'em: Those operator training vouchers you got from DNR will expire at the end of this year. Fortunately, you have the opportunity to use them wisely at a couple of our upcoming classes.

We're offering **Basics of Water and Wastewater** next Wednesday and Thursday (November 7 & 8) in Camdenton and Branson. Interesting and useful material, credit hours, a delicious lunch, and a day away from work. More info and a registration form are on the next page.

DNR received \$3.1 million for small system training from the EPA. In 2004, they sent out almost \$2M in vouchers to over 1,500 systems, of which \$0.7M was redeemed by almost 1,000 systems. \$0.3M was spent administering the program, which leaves over \$2M to extend the program into the future. Watch your mailbox for more training treats.

The Next Harry Potter

We've just signed a contract with John Wiley and Sons to publish a book based on our ten years of extensive, in-depth evaluations of the Bloomington, IL water plant. *Water Treatment Plant Performance Evaluations and Operations* promises to be a richly-illustrated manual for operators and water utility managers.

The book should be available sometime next year, hopefully in time for Christmas.

Happy Halloween

Does anyone remember Johnny Human Torch, Invisible Pedestrian, Johnny Space Commander... ? Now those were some great costumes.

Have a fun and safe Halloween. Dress up!
